Providing Excellence in Training and Continuing Education to California Health Services Community since 1986

School Performance Fact Sheet

The Family Health Services Training Center is required by the California Education Code to make available a copy of the Center's School Performance Fact Sheet to each prospective student. A copy of this document is on file with California Bureau for Private Postsecondary Education.

The charts below illustrate the Center's performance over two years including 2014 through 2015 in phlebotomy training program. The performance categories illustrated include:

1. **Course Completion Rate** which includes the number of students enrolled in the course and the number of students who successfully complete the course.
2. **Placement Rate** which includes the number of students that successfully completed the course and the number of students subsequently employed.
3. **National Exam Passage Rates** which includes the number of students that sit for the national phlebotomy exam and the number of students who passed.
4. **Salary and Wage Information** which includes employment and wage data reported by students employed during 2014 and 2015.

Course completion rates were calculated from student data on file at the Center. The Center is required to keep such data for a minimum time period of 5 years. Should a reader of this document care to review this data, it can be made available upon request with student personnel data deleted.

Phlebotomy as an occupation is closely related to other occupations in the field of clinical laboratory science. Such occupations include Medical Laboratory Technician and Medical Laboratory Assistant. These are positions in the field of Clinical Laboratory medicine to which a student could be placed based on education and training provided in this course.

The US Department of Labor Occupational Handbook 2010-2011 gives the most current data available on job prospects for graduates of phlebotomy programs whose training may qualify for placement in other closely related occupations as discussed above. To review this information the reader is referred to the US Department of Labor's website. Search for "Occupational handbook" and scroll down the alphabetical listing to find Medical Laboratory Technicians or Medical Laboratory Technicians.

This fact sheet is filed with the Bureau for Private Postsecondary Education. Regardless of any information you may have relating to completion rates, placement rates, starting salaries, or license exam passage rates, this fact sheet contains the information as calculated pursuant to state law.

Any questions a student may have regarding this fact sheet that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at: P.O. Box 980818, West Sacramento, CA 95798-0818, www.bppe.ca.gov, P: 888.370.7589 or 916.431.6959, F: 916.263.1897.

I have read and understand this School Performance Fact Sheet. The School Performance Fact Sheet was reviewed and discussed with a school official prior to signing an enrollment agreement.

Definitions

¹“Number of Students Who Began Program” means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

²“Students available for graduation” is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

³“Graduates” is the number of students who completed the program within 100% of the program length.

⁴“Completion Rate” is the number of Graduates divided by the Number of Students Available for Graduation.

⁵“150% Graduates” is the number of students who completed within 101-150% of the program length.

⁶“150% Completion Rate” is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

⁷“Graduates available for employment” means the number of graduates minus the number of graduates unavailable for employment. “Graduates unavailable for employment” means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

⁸“Graduates employed in the field” means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

⁹“Placement Rate Employed in the Field” is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

¹⁰Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

¹¹Exam Date is the date for the first available exam after the students completed the program.

¹²Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

¹³Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

¹⁴Salary is as reported by the student. Not all graduates report salary. A list of the employers of the Graduates Employed in the Field can be obtained from the Job Placement Office at the School.
